

# Used Bike Value Guide

## Summer 2005 Edition

**W**ELCOME TO THE MCN "Used Bike Value Guide." The manufacturers and models are listed alphabetically and by displacement in two categories: "On/Off Road" and "Street." Please note that in order to keep this guide to a manageable length, in some cases we have used a "shorthand" method of listing only the basic model when slight variations of that model exist.

The prices given are for the *full retail value* of a stock motorcycle. This price best represents either a reconditioned or clean, undamaged and well-maintained vehicle ready to be sold publicly by a dealer or privately between individuals. Remember that the value assigned is a national average and may not reflect regional trends.

All of the values published are intended to be used as a guide only, and are determined by evaluating sources the publisher believes to be accurate. In certain cases, an extremely clean or low-mileage example of a vehicle will command a higher market value than what is indicated here. Certain higher-priced aftermarket additions may also increase the value. By the same token, bikes with high mileage, body damage or evidence of abuse or lack of maintenance will command lower market values.

Though considerable care has been exercised to ensure the accuracy of these values and specifications, neither N.A.D.A. Appraisal Guides or MCN assumes responsibility for any errors or omissions.

For a more complete breakdown of value and specifications, MCN recommends subscribing to the *N.A.D.A. Consumer Motorcycle/Snowmobile/ATV/Personal Watercraft Appraisal Guide* (888) 232-6232.
