

Winter 2007-2008 Edition

WELCOME TO THE MCN Used Bike Value Guide. The manufacturers and models are listed by displacement in two categories: "On/Off Road" and "Street." Please note that in order to keep this guide to a manageable length, in some cases we have used a shorthand method of listing only the basic model when variations of that model exist.

The prices given are for the *full retail value* of a stock motorcycle. This price best represents a reconditioned or clean, undamaged and well-maintained vehicle ready to be sold by a dealer or between individuals. The value assigned is a national average.

All of the values published are intended to be used as guidelines only, and are determined by evaluating sources N.A.D.A. believes

to be accurate. In certain cases, an extremely clean or low-mileage example of a vehicle will command a higher market value than indicated here. Certain higher-priced aftermarket additions may also increase the value. By the same token, bikes with high mileage, body damage or evidence of abuse or lack of maintenance will command lower market values. In this guide, the years evaluated ended with 1995.

Though considerable care has been exercised to ensure the accuracy of these values and specifications, neither N.A.D.A. Appraisal Guides nor MCN assumes responsibility for any errors or omissions.

For a full breakdown of values, MCN recommends subscribing to the N.A.D.A. Consumer Motorcycle/Snowmobile/ATV/Personal Watercraft Appraisal Guide: (888) 232-6232; www.nada.com
