

# Used Bike Value Guide

## Summer 2010 Edition

THE SUMMER RIDING season is upon us, and MCN's Used Bike Value Guide is here to help you find the right bike for your riding needs! As the economy slowly continues to improve, we've noticed that values are holding a little better than in fall 2009, and certain lightweight models have even gained value as they've become sought after for their greater fuel efficiency. The used bike market may be returning to normal, but there are still great deals to be had. Sellers are motivated, and cash is king.

To conserve editorial space, we will often list only the basic model, although variations or special editions of that model may exist, often at a higher price than the base model. Likewise, certain models

available in a "black" economy version may also not be listed.

All of the values published are intended to be used as guidelines only and are determined by evaluating sources N.A.D.A. believes to be accurate. Clean or low-mileage examples of a vehicle will obviously command a higher market value than bikes with high mileage, damage, or other obvious abuse.

Although care has been taken to ensure the accuracy of these values, neither N.A.D.A. nor MCN assumes responsibility for errors or omissions. For a complete breakdown of current used bike values, MCN recommends subscribing to the N.A.D.A. Motorcycle/Snowmobile/ATV/Personal Watercraft Appraisal Guide: 888-232-6232; [www.nada.com](http://www.nada.com)
